ODP 81-092  
22 January 1981

MEMORANDUM FOR: Acting Deputy Director for Administration

25X1  
FROM:

[REDACTED]  
Acting Director of Data Processing

SUBJECT: ODP Report for Week Ending 21 January 1981 (U)

SAFE (U)

Several representatives of the Consolidated SAFE Project Office traveled to Los Angeles on 18 January to participate in the Initial Design Review. The purpose of the 19-22 January review was to review TRW's progress in the design of the SAFE System at a detailed technical level. (U) [REDACTED]

Support to the Community (U)

CAMS (COMIREX Automated Management System) The Dual Mode System Test continued at an accelerated pace in order to support the early launch of the Dual Mode System. The system test is scheduled to be completed by 30 January and the Interface Test with the West Coast is scheduled to be completed by mid February. Both contractor and staff personnel are working extra hours to meet these schedules. (S) [REDACTED]

25X1

Support to Office of Security (U)

4C (Community-wide Computer-assisted Compartmentation Control System) The DCI signed and forwarded to the House and Senate Appropriations Committees a letter covering a white paper which requests that 4C spending authorizations be increased to the [REDACTED] million needed in FY-81. At the same time, the House Appropriations Committee Survey and Investigation Team has returned a recommendation that 4C be fully funded. (C) [REDACTED]

14 - 20 January 1981

Applications

The following item was taken from the bulletin board of one of the ARPANET hosts:

"Do you have any good ideas for computer aids for the blind, deaf, mentally retarded, persons with learning disabilities, patients with neurological or neuromuscular conditions, or for the orthopedically handicapped? If so, you might like to enter your ideas in a computer aid-to-the-handicapped contest being sponsored by John Hopkins University's Applied Physics Laboratory, the National Science Foundation, and Radio Shack. One hundred awards will be made, including a \$10,000 grand prize. For entry applications and more information write: Personal Computing to Aid the Handicapped  
John Hopkins University  
P. O. Box 670  
Laurel, Md. 20810.

25X1

Management

1983 Program Plan. The initial meeting on the 1983 Program Plan between the DDA Management Staff and DDA Office Planning and Budget Officers was held on 19 January. The program is due in the DDA on 6 March. This year's plan for handling out-year costs was highlighted in the meeting. Only net changes from year-to-year will be shown and that will be on a special form which will contain a detailed explanation of the changes. (ODP Only)

25X1

Processing

TAPEMON has been modified to allow Y-tape processing and to automatically update TMS for Y-tapes and Z-tapes. Users can now process both non-label and standard-label Y-tapes on VM.
